

Adopted by The NewsGuild-CWA 2025 Sector Conference

Proposed resolution re: Support for national Single Payer/ Medicare for All Legislation. Submitted by Local 39521

Resolution To Support the National Single Payer Campaign
NationalSinglePayer.com

Whereas the U.S. healthcare system is not providing healthcare for all people of the United States, and

Whereas cuts to Medicaid and the privatization of Medicare through Medicare advantage are further destroying access to healthcare, and

Whereas health care costs are more per person in the United States than any other high-income countries, and

Whereas the for-profit medical system in the United States is endangering the health and financial well-being of working class and low or no-income people, driving many into bankruptcy, and

Whereas a single-payer system would end insurance companies' control of healthcare, and

Whereas the ever-rising costs of private-sector employer health coverage is diverting more and more of the wages of journalists and other working people to health insurance companies instead of to wages and benefits,

Whereas there is a national campaign to raise awareness of the issue among the people of the United States,

Therefore, be it resolved that The NewsGuild-CWA endorses the national Single Payer Campaign.
